About Me

Results-driven Software Engineer with over 2 year of experience in Java-based web application development. Skilled in designing, implementing, and maintaining scalable software solutions. Strong collaborator and problem-solver with a proven ability to drive innovation and optimize performance in product development environments.

Experience

SutiSoft Pvt. Ltd.

Software Engineer (2022 - Present)

- Developed core logic and UI components for the SutiSign digital signature platform, supporting 50+ enterprise clients.
- Resolved 30+ critical bugs, significantly improving application stability.
- Mentored 3 junior developers, promoting best practices in Java and the Spring framework.
- Actively contributed to code reviews, ensuring adherence to architectural patterns and coding standards.

Project: SutiSign Digital Signature Platform

- Collaborated with cross-functional teams to enhance the SutiSign application, focusing on user experience and seamless electronic document signing.
- Implemented end-to-end digital signature functionality, legally validating documents and reducing processing time.
- Conducted thorough code reviews, ensuring optimal performance and code quality.

Achievements

- Spearheaded complex bug resolutions, enhancing application reliability.
- Guided junior developers, fostering growth in coding best practices, design principles, and troubleshooting.

Education

Master of Computer Applications(MCA)

Bachelor of Computer Science (ECS)

Solapur University | A+ Grade | 2022

Higher Secondary Certificate (HSC) | Science Stream | 58.31% | 2018

Core Skills

Programming Languages: Java, Spring Core, Spring MVC, Spring Data JPA, Spring Boot, Struts2

Web Technologies: HTML5, CSS3, JavaScript, jQuery, React js

Databases: MySQL, Oracle

Design Patterns: Singleton, Factory, MVC

Data Structures: Arrays, Stack, Queue, Linked Lists

Version Control: Git, GitLab

Build & Deployment: Maven, Tomcat

Frameworks & Tools: Log4J, SLF4J

Concepts: REST APIs, Microservices

Soft Skills

Strong problem-solving and debugging skills

Adaptable and results-oriented

Excellent communication and team collaboration abilities
